Dear Dr Frolov

ONE THOUSAND GREAT INTELLECTUALS - 1ST EDITION

Your name has been brought to the attention of the Research Department of the International Biographical Centre and I am contacting you with a view to including your biographical essay in this new international work of reference.

The International Biographical Centre is one of the world's leading publishers of works of biographical reference and lists amongst its most well known publications **Dictionary of International Biography**, **Who's Who in Asia and the Pacific Nations** and more recently **2000 Outstanding Scientists of the 21st Century** and **2000 Outstanding Intellectuals of the 21st Century**.

If you would be good enough to review the brochure enclosed and reply to us indicating your acceptance, I will be delighted to send you a questionnaire for your attention, outlining the information we will need. On receipt of this information your personal editor will then create the entry and all biographees will then receive a typescript for checking prior to publication. There is no charge for this, since entry into this title is by invitation and cannot be purchased. There are however a number of commemorative items available exclusively to you as a biographee, not the least of which is a copy of the book itself at a special pre-publication price. An order form is conveniently located on the brochure.

I congratulate you for having been chosen to receive this invitation following the recommendation of your name to researchers. In the same way, perhaps you know of colleagues or friends who would similarly benefit from featuring in one of our titles. We will immediately write to those you suggest. Please use the recommendation form overleaf.

I very much look forward to hearing from you.

Sincerely

Jon Gifford
Editor in Chief
